Erratum

In the article 'Gap junctions in goldfish preoptic ependyma: regional variation in cellular differentiation' by W.A. Gregory and M.V.L. Bennett, *Developmental Brain Research,* 42 (1988) 205–216, an unfortunate error has occurred.

On p. 208, in the first paragraph of the Results section, the third sentence *should read:* 'These elongated cells were coupled by numerous gap junctions and desmosomes near the ventricle (Figs. 1 and 2).'
